|---|-----|
| (1) Number of separate tenements or underground rooms in respect of which Closing Orders were made  | Nil |
| (2) Number of separate tenements or underground rooms in respect of which Closing Orders were determined, the tenement or room having been rendered fit | Nil |

4. Housing Act , 1935 - Overcrowding :-

- |  |      |
|--|------|
| (a) - (i) Number of dwellings overcrowded at the end of the year   | 17   |
| (ii) Number of families dwelling therein   | 17   |
| (iii) Number of persons dwelling therein   | 104  |
| (b) - Number of new cases of overcrowding reported during the year   | Nil  |
| (c) - (i) Number of cases of overcrowding relieved during the year   | Nil  |
| (ii) Number of persons concerned in such cases   | Nil  |
| (d) - Particulars of any cases in which dwelling-houses have again become overcrowded after the Local Authority have taken steps for the abatement of overcrowding | NIL. |
| (e) - Any other particulars with respect to overcrowding upon which the Medical Officer of Health may consider it desirable to report.                             | NIL. |

SECTION E - Inspection and Supervision of Food

- (a) MILK SUPPLY The Dairies and Cowsheds have been periodically inspected and are Lime-washed at frequent intervals. There are two producers of Grade "A" TT Milk in the Borough.
- (b) MEAT And OTHER FOODS The Public Abbatoir is inspected twice a week - is kept clean and is Lime-washed periodically. The meat shops are kept in good order - two out of the three retailers have Cold Storage provided.

(1) - Proceedings under section 20 of the Housing Act 1936 :

- (1) Number of separate tenements or sub-tenements  
rooms in respect of which closing orders  
were made
- (2) Number of separate tenements or sub-tenements  
rooms in respect of which closing orders  
were determined, the tenement or room having  
been rendered fit

4. Housing Act, 1936 - Overcrowding :-

- (a) - (i) Number of dwellings overcrowded at the end  
of the year  
(ii) Number of families dwelling therein  
(iii) Number of persons dwelling therein
- (b) - Number of new cases of overcrowding reported  
during the year
- (c) - (i) Number of cases of overcrowding relieved  
during the year  
(ii) Number of persons concerned in such cases
- (d) - Particulars of any cases in which dwelling-houses  
have again become overcrowded after the Local Authority  
have taken steps for the abatement of overcrowding
- (e) - Any other particulars with respect to overcrowding upon  
which the Medical Officer of Health may consider it  
desirable to report

SECTION 5 - Inspection and Supervision of Food

- (a) MILK SUPPLY - The Dairies and Cowsheds have been periodically  
inspected and are lime-washed at frequent intervals. There  
are two producers of Grade "A" TM Milk in the Borough.

I am, Sir

Your Obedient Servant,

*M. D. M. B. L.*

Medical Officer of Health.

BOROUGH OF BEAUMARIS

Borough Surveyor's Office,  
Municipal Buildings,  
Beaumaris.

30th June 1938.

To the Medical Officer of Health,  
for the Borough of Beaumaris.

Sir,

I have pleasure in submitting to you my Report as Sanitary Inspector for the Borough of Beaumaris for the year ending December 31st, 1938.

WATER SUPPLY I have to report that the supply has been ample to meet all demands throughout the year. During the months of July, August and September we were hampered as far as the Sand Filtration was concerned by the presence of "ALGAE" in large quantities, and as you are aware Experts were called in to advise as to the best treatment, and the co-operation of the Ministry of Health was obtained. We were however, by careful attention able to supply good drinking water. The Council were advised to apply Copper Sulphate at Penparc Lake to retard the growth of Algae, and they further decided to install a Chloramine Plant to ensure good sterile water.

DRAINAGE AND SEWERAGE.

The sewerage system has worked fairly satisfactory during the year, and no serious flooding has occurred during the high tides of the year. The new Outfall Sewer laid two years ago is giving every satisfaction. New drains have been laid in Thirteen houses in the town, they were defective, and on personal representations being made to the Owners they were renewed.

SCAVENGING AND REMOVAL OF HOUSE REFUSE.

This work is done under my supervision and collections are now being made twice a week from January to June, three times a week from July to September and twice a week from September to December. The whole of the town and parts of the outside areas is cleared 117 times in twelve months, which represents about 672 tons of refuse.

HOUSING AND OVERCROWDING

I am pleased to report that Contracts have been signed by the Council to erect 50 houses of the non-parlour type to meet the demand of the Clearance Area. These are to be partly occupied by August, and the whole by December 31st 1938. Having been appointed the Architect, the work of supervising falls upon me - which are additional duties.

SCHOOLS

In accordance with your instructions I have continued my inspection of the County and Elementary Schools. The sanitary arrangements are satisfactory and the supply of Water from the Town's main supply is ample.

General Secretary's Office,  
Hempstead Village,  
Queens, N.Y.

20th June 1954

To the Honorable Officer of Health,  
for the Borough of Hempstead.

I have pleasure in replying to your report as Secretary  
Inspector for the Borough of Hempstead for the year ending  
December 31st, 1953.

WATER SUPPLY  
I have to report that the supply has been ample  
to meet all demands throughout the year. During  
the months of July, August and September no water  
was reported as far as the local distribution was  
concerned by the presence of "Albino" in large  
quantities, and as you are aware, experts were  
called in to advise as to the best treatment, and  
the co-operation of the Ministry of Health was  
obtained. It was, however, by careful  
attention paid to supply good drinking water.  
The Council were advised to supply Copper Sulphate  
at a higher rate to reduce the growth of Algae, and  
they further decided to install a Chloramine plant  
to ensure good water supply.

DRAINAGE AND  
SEWERAGE  
The drainage system has worked fairly satisfactorily  
during the year, and no serious flooding has  
occurred during the high tides of the year. The new  
Culvert No. 10 was laid out years ago and is giving every  
satisfaction. New drains have been laid in  
thirteen houses in the town, they were defective, and  
on personal representations being made to the Owners  
they were replaced.

SEWAGE TREATMENT  
AND  
REMOVAL OF LITTER  
This work is done under my supervision and collection  
are now being made twice a week from January to  
June, three times a week from July to September  
and twice a week from September to December.  
The whole of the town and parts of the outlying  
area is cleared six times in twelve months, which  
represents about 675 tons of refuse.

HOUSING AND  
OVERCROWDING  
I am pleased to report that Council have been  
advised by the Council to erect 50 houses of the  
two garden type in the area of the Green-  
land Road. These are to be partly occupied by  
A. and S. and the whole is to be completed by 1958.  
Having been appointed the architect, the work of  
supervising this work is now in progress.

STREET  
CLEANING  
In accordance with your instructions I have  
continued my inspection of the Council and the  
Hempstead. The cleaning of the streets and  
only the work of the Council is the main work.

RIVERS AND  
STREAMS

No action has been found necessary as no pollution of any kind has been found during the year.

CLOSET  
ACCOMMODATION

There have been no conversions from CONSERVANCY during the year.

NUISANCES

Fifty-eight cases were reported during the year which were immediately attended to. These were mostly minor blockages in drains and Soil pipes and were attended to by the Council's own staff.

SMOKE ABATEMENT

No action has been found necessary.

SHOPS

These are periodically inspected and are quite satisfactory as far as sanitary conveniences and ventilation are concerned.

GENERALLY

I would draw your attention to the very desirable improvements recently carried out to the ten houses on the Sea front, originally the property of the Town Council but which were recently sold. They have been converted into twenty modern flats and one large dwelling house, all the sanitary arrangements were renewed to my entire satisfaction and the flats are now tenanted. The total cost of these improvements was in the neighbourhood of £24,000. 0. 0d.

Also the largest hotel in the town has during the year been reconditioned and brought up to date as far as accommodation and conveniences are concerned. A completely new drainage system was installed to my entire satisfaction.

The cost of these improvements are in the neighbourhood of £23000. 0. 0d.

I may add that these two desirable improvements will have a beneficial effect on the Town generally.

I remain, Sir,  
Your obedient servant,

*Griffith Stuenkel*  
Borough Surveyor.

*Sanitary Inspector*

WATER AND  
SEWERAGE

No action has been found necessary as no  
pollution of any kind has been found during the  
year.

OBJECT

ACCOMPLISHMENT

There have been no conversions from cesspools  
during the year.

WATERWORKS

Fifty-eight cases were reported during the year  
which were immediately attended to. These were  
mostly minor blockages in drains and soil pipes  
and were attended to by the Council's own staff.  
No action has been found necessary.

SEWERAGE

SEWER

These are particularly inspected and are quite  
satisfactory as far as sanitary conveniences and  
ventilation are concerned.

GENERALLY

I would draw your attention to the very desirable  
improvements recently carried out to the town houses  
as the result, originally the property of the  
Town Council but which were recently sold.  
They have been converted into twenty modern flats  
and one large dwelling house, all the sanitary  
arrangements were renewed to my entire satisfaction  
and the flats are now tenanted. The total cost of  
these improvements was in the neighborhood of  
£24,000.0.0.  
Also the largest hotel in the town has during the  
year been reconstructed and brought up to date as  
far as accommodation and conveniences are  
concerned. A completely new drainage system was  
installed to my entire satisfaction.  
The cost of these improvements is in the  
neighborhood of £2500.0.0.  
I may add that these two desirable improvements  
will have a beneficial effect on the town  
generally.

I remain, Sir,  
Your obedient servant,

*W. J. H. Thomas*  
\_\_\_\_\_  
Municipal Engineer
